As a responsible individual, you always strive to provide comfort, happiness and security to your family. You want to ensure that your family’s future needs are taken care of and your family continues to maintain their lifestyle, in case of any unfortunate incident that may happen with you. But life is uncertain and how do you make sure that your family is secure and protected in every circumstance?

At Bharti AXA Life, we understand this and have decided to act. We present to you Bharti AXA Life Premier Protect Plan - a Life Insurance plan that provides life insurance coverage and is designed to protect your family’s future to ensure that they lead their lives comfortably without any financial worries, even in your absence. The plan offers flexibility to choose from multiple policy terms with single pay, limited pay and regular pay options. The plan provides you with the flexibility to choose from different death benefit payout options to suit your family’s needs. You may also choose to increase the protection during the policy term by paying additional premium on certain life stages and milestones which occur in your life hence, providing enhanced protection to your family.
Key Features

1. Policy Terms & Premium Payment Terms:
The plan offers the choice of multiple policy terms and premium payment terms. The Policy Terms & applicable premium payment terms are as given below:

2. Death Benefit:
In case of death of the Life Insured during the policy term, provided the policy is in force and all due premiums have been paid till the date of death, the Death Benefit will be payable to the nominee/beneficiary immediately on the death. Death Benefit is the Sum Assured on Death, which is the highest of:

- 11 times Annualized Premium*
- 105% of all premiums paid as on date of death
- Absolute Amount Assured to be paid on death equal to the Sum Assured
- Sum Assured on Maturity, equal to zero under the policy

*Annualized Premium shall be the premium amount payable in a year chosen by the policyholder, excluding the taxes, rider premiums, underwriting extra premiums and loadings for modal premiums, if any.

In case of the death of the Life Insured during the Grace Period, the Death Benefit after deducting the unpaid due premium and any other amount due, shall be payable and the Policy will be terminated.

In case of the death of the Life Insured while the Policy is in lapse status, no benefit shall be payable and the Policy will be terminated.
Death Benefit Payout Option:
At the inception of the policy, the Life Insured has to choose the Death Benefit Payout Option from one of the three options below:

- **Lumpsum:** Under this option, 100% of the Death Benefit (as defined above) will be paid immediately on death as lumpsum.

- **Lumpsum plus Monthly Income:** Under this option, 50% of the Death Benefit will be paid immediately on death as lumpsum and the remaining 50% of the Death Benefit will be paid as 0.93% of the total Sum Assured every month in the form of Monthly Income, payable for 5 years with the first installment being payable immediately on death.

- **Monthly Income:** Under this option, the Death Benefit will be paid as 1.04% of the Sum Assured every month in the form of Monthly Income, payable for 10 years with the first installment being payable immediately on death.

Under the Death Benefit Payout Option as stated above, the nominee/beneficiary will have an option to take the Monthly Income as a lumpsum. This option is only available at the time of death before the payment of the first installment. The lumpsum shall be calculated as a Present Value of Monthly Incomes discounted at 5% p.a. This rate may be revised subject to prior approval from IRDAI.

3. Increasing Sum Assured Option:
*Under Regular Premium Payment Term option only.* The policyholder will have an option to increase the Sum Assured on three milestones during the policy term, provided that at the time of exercising this option, the outstanding policy term is at least 10 years and the policyholder’s age is maximum of 45 years (age last birthday). At each milestone, the Sum Assured can be increased by an amount equal to 50% of the Sum Assured chosen at inception at each milestone listed below:

- Marriage
- Purchase of house (Loan purposes)
- Birth of child
The cumulative increase of Sum Assured is capped to 100% of the Sum Assured chosen at inception.

The policyholder can increase the Sum Assured on the above mentioned events without undergoing any further medical examination.

These options need to be exercised within six months from the date of the milestone and the increase in Sum Assured shall be effective from the policy anniversary following the exercise of this option and additional premium shall be collected for the additional Sum Assured, where the premium rate shall be based on the age of the policyholder and the outstanding duration of the policy, as on the policy anniversary following the selection of the option.

4. Tax Benefits:
You may be eligible for tax benefits on the premiums paid as well as the benefits received as per the prevailing tax laws. The tax benefits are subject to change as per the change in tax laws from time to time.

**Case Study**

Siddharth is a 35 year old non-smoker salaried professional. His family consists of his wife and a son. He is worried about the uncertainties of life and realizes the need for protection in his fast-paced life. He wants to ensure that his family’s needs are taken care of in case of his death and wants an insurance solution to this.

**How does the plan work?**

Siddharth decides to purchase Bharti AXA Life Premier Protect Plan for a policy term of 25 years regular pay and opts for lumpsum payout option.

He wants a Sum Assured of ₹1,00,00,000 for which he pays a premium of ₹12,400 p.a. (exclusive of taxes).

**Scenario 1:**

In case of Siddharth’s death during the policy term, his family would receive death benefit of ₹1 Cr. immediately on his death.

**Scenario 2:**

Siddharth continues to live a healthy life and at the age of 40 years, he and his wife plan to have a second child. In this major milestone of Siddharth’s life and due to an increase in the responsibilities, he wants to increase the protection by 50% so as to secure both his children and his wife in case of any unfortunate event.

Siddharth turns 40 years, he and his wife plan to have a second child.

Siddharth’s Sum Assured increases to ₹1,50,00,000 for which he pays an additional premium of ₹8,000 p.a. (exclusive of taxes) i.e. total premium of ₹20,400 p.a. for the remaining 20 years of the policy term.

In case of Siddharth’s death within 60 years of age, his family would receive 1.5 Cr immediately on his death.

**Advance Premium**

For monthly premium payment mode policies, the Company may accept 3 months premium in advance only on the date of commencement of the policy.

In case of advance premium:
- Collection of advance premium shall be allowed within the same financial year for the premium due in that financial year.
- The premium so collected in advance shall only be adjusted on the due date of the premium.

**What happens if I am unable to pay premiums?**

While we recommend that all your premiums be paid on the respective due dates, we also understand that sudden changes in lifestyle like an increase in responsibility or an unexpected increase in household expenses may affect your ability to pay future premiums. You have the following flexibilities in order to ensure that your benefits under the policy continue in full or part.

**Grace Period:** Grace period is the period after the premium due date, during which you may pay your premiums without any impact on the policy benefits. The grace period is 15 days for monthly mode and 30 days for annual/semi-annual/quarterly premium payment modes. In case of the death of the Life Insured during this period, the Death Benefit shall be payable after deducting the unpaid due Premium and the Policy will be terminated. During the Grace Period, the policy will be in force.

**Lapsation:** In case you do not pay the due premiums within your Grace Period, your policy will lapse and your insurance cover will cease to exist. You can revive the policy within the period allowed for revival of the policy. At the end of the revival period if the policy is not revived then the policy will be terminated and no benefits will be payable. In case of the death of the Life Insured while the Policy is in lapse status, no benefit shall be payable and the Policy will terminate.

**Revival:** You have the flexibility to revive your lapsed policy within the revival period of five years after the due date of the first unpaid premium, subject to the terms and conditions the Company may specify from time to time.

For Revival, you will need to pay all the outstanding premiums and interest on the outstanding premiums and applicable taxes. The revival interest rate may be changed by the Company from time to time, subject to prior approval from IRDAI. The revival interest rate will be calculated on the 1st of April every year and will be derived as average of last six months 10 year G-Sec* yield of the immediate last financial year plus 0.5%. The current revival rate of interest for FY 20-21 is 7.12% p.a. Once the policy is revived, you are entitled to receive all benefits under your policy.

---

**Unexpired Risk Premium:**

The policy acquires an unexpired risk premium after the payment of two annualized premiums under limited pay option with 5 years PPT and three annualized premiums for limited pay option with 10 years PPT and immediately for single pay option. No unexpired risk premium will be payable for regular pay option.

The unexpired risk premium will be payable immediately on surrender as per the formula below:

\[
SVF = \frac{P}{PP} \times \left( \frac{U}{T} \right) ^{0.5} 
\]

where:
- **SVF** = The Surrender Value Factor (SVF) of 70%
- **P** = Premiums paid till date of surrender excluding applicable taxes, modal loadings and underwriting extra, if any
- **U** = Outstanding Policy Term (in months)
- **T** = Policy Term (in months)
- **PP** = Total Premiums payable excluding applicable tax, modal loadings and underwriting extra, if any.

**Do I get the flexibility to enhance my protection through additional features?**

To enhance your protection, you may customise your policy by opting for the following riders.
Can I surrender my policy?
We would want you to pay premiums regularly till the end of your premium payment term to get maximum benefits under the policy. However, in case you are not able to pay all premiums and want to exit the policy earlier then only and unexpired risk premium will be payable to you.

Unexpired Risk Premium: The policy acquires an unexpired risk premium after the payment of two annualized premiums under limited pay option with 5 years PPT and three annualized premiums for limited pay option with 10 years PPT and immediately for single pay option. No unexpired risk premium will be payable for regular pay option.

The unexpired risk premium will be payable immediately on surrender as per the formula below:

\[
\text{Unexpired Risk Premium} = (\text{SVF}) \times P \times \left(\frac{U}{T}\right) \times \left(\frac{P}{PP}\right)
\]

where:
- \(\text{SVF}\) = The Surrender Value Factor (SVF) of 70%
- \(P\) = Premiums paid till date of surrender excluding applicable taxes, modal loadings and underwriting extra, if any
- \(U\) = Outstanding Policy Term (in months)
- \(T\) = Policy Term (in months)
- \(PP\) = Total Premiums payable excluding applicable tax, modal loadings and underwriting extra, if any.
